In the event said committee, or its designated representative fails to approve or disapprove such design and location within 30 days after said plans and specifications have been submitted to it, or in any event, if no suit to enjoin the erection of such building or the making of such alterations has been

commenced prior to the completion thereof, such approval will not be required and this Covenant will be deemed to have been fully complied with. Neither the number of such committee or its designated representative shall be entitled to any compensation for services performed pursuant to this Covenant. The powers and duties of such committee, and of its designated representative, shall cease on and after five (5) years. After the committee has advised the owner, the owner will have preliminary plans prepared which will be submitted to the committee for approval or necessary alterations to conform with the site requirements. After preliminary studies have received written approval, the owner will proceed and have the final plans, specifications and plot plan completed which will be again submitted to the committee for final written approval. However, the housing of such pets must be so constructed that it will not be unsightly and the number of such birds and pets and the housing for them shall be approved by the committee.

VII. No trailer, basement, tent, shack, garage, or other outbuilding erected in, upon or about any of said residential lots hereinbefore described or any part hereof, shall at any time be used as a residence temporarily or permanently, nor shall any structure of a temporary character be used as a residence.
