Mike's report on fire meeting

- People need to be responsible for their own property
- List of things to be done in the next 2 years; Mike is recruiting folks; 100 people to work on their own property; new science is to work from the house outward; follow the homeowners for 2 years as people work on their property
- Need committee people
- On-site assessment; check in on homeowners every few months; record progress
- The question is how to motivate folks to do preventative work
- Maybe have a community meeting focused only on wildland fire prevention in March or April
- Mike is going to put map of hydrants on website; he couldn't get one from the fire department but he did get one from the water company

Meeting adjourned at 8:30
