

SUMMIT PARK
A FIREWISE COMMUNITY

Wildfire Mitigation Grant

Receive up to \$500 to help make your property more FireWise

The Summit Park Home Owners Association (HOA) is offering property owners a monetary incentive to help support our collective neighborhood goal in becoming a fire adaptive community. For approved projects, the HOA will match dollar-for-dollar up to \$500 per house or lot to help offset the expense of making your home or lot FireWise. This includes work such as:

- Removing dead or beetle-infested trees
- Removing combustible material, including landscaping mulch and bark chips, pine cones and pine needles around any structures and decks on the property
- Cleaning roof valleys and gutters of pine needles, leaves and debris, which can be a bed for embers

To Apply:

1. Applicant will receive assessment and bid from a local vendor (*note that the HOA cannot endorse or provide suggestions for services*)
2. Applicant will send a letter of intent via email to the HOA board: summitparkutah@gmail.com. In the email, please include:
 - Name, address, phone number
 - Vendor bid with an explanation of the work you will be completing
3. The HOA will confirm whether you are approved for the grant
4. When the project has been completed, submit your invoice to the HOA via email: summitparkutah@gmail.com. Once this important work is verified, an HOA member will deliver your check

Requirements:

- HOA dues are paid
- Trees cut down must be removed from the property unless the homeowner intends to use it for firewood
- With permission, before and after pictures may be placed on the HOA website and social properties
- Recipients acknowledge that the Summit Park Home Owners Association and its current and past board members are not liable for damages resulting from tree removal activities or from Wildland fire
